LOOKING SOUTH

SUNRISE OVER THE BAY

Location

Along the Southern coast of the State of Mississippi, lies a region richly dowered with natural beauties. In front, the sparkling waters of the Mexican Gulf stretch far away to the south; in the rear, forests of lordly pines, after charging the air with health-giving aroma, serve to ward off the chilling blasts from the north. At the extreme western end of this delightful belt, fifty-two miles from New Orleans by the Louisville and Nashville Railroad, the shore line makes a crescent-like curve, and along the picturesque beach of the inlet thus formed, stretches the thriving town of Bay St. Louis.

Here, surrounded by beauties of nature and art, on rising ground, at one of the horns of the crescent, stands St. Stanislaus College. Far enough from New Orleans to escape its distractions, Bay St. Louis is yet close enough to it to enjoy all the conveniences of a large city; and thus combining the double charm of city life with country life, salutary isolation with wholesome climate, the Bay is particularly fitted as a site for an educational institution. In addition, the beautiful buildings, the shaded campus, the balmy sea breezes and the opportunities for bathing afforded by the Gulf, all concur to make the College a delightful home, admirably adapted to promote the health, comfort and intellectual progress of its pupils.

Buildings and Equipment

Occupying a prominent site overlooking the Bay, with a frontage of 455 feet, St. Stanislaus College proudly rears its cross-crowned domes. The three main buildings run north and south, parallel to the beach. Stoutly constructed of brick, they are provided with numerous openings to secure ample ventilation and light. In the morning, the breeze from the Bay is wafted through every classroom, study hall and dormitory; in the evening, as the sun sinks behind the pines, their health-giving aroma, wending seaward, pervades the length and breadth of these spacious buildings.

The Class Rooms and Study Halls

The study halls and the class rooms, all on the ground floors of the main buildings, are equipped with modern school furniture. Each student is provided with an individual desk, both in class and study hall. The distribution of electric globes in the halls satisfies in every way the requirements of modern lighting.

Dormitories and Lavatories

The dormitories, located on the second floors of the front buildings, are high, spacious and well ventilated rooms, screened throughout and are ideal places for rest. The soft lullaby of the waves on the beach, not a hundred feet away, lulls one to sleep. Adjoining each dormitory are separate lavatories and toilet rooms fitted according to the most exacting sanitary requirements. These airy dormitories and glistening lavatories bear evidence to the fact that in the rebuilding of the College, nothing was left out that could tend in any way to the health and comfort of the students.

Chapel

The chapel, a spacious hall with openings on three sides, is situated on the second floor of the principal building. It is furnished with pews of a most attractive and elaborate design. With the help of friends the chapel has been adorned with splendid creations of the artists' handiwork. The handsome Altar is a princely gift of that staunch friend of the College—the Very Reverend Aloysius Van Waesberghe, the former beloved Pastor of Bay St. Louis. The life-size statues of the Sacred Heart, of the Blessed Virgin, of St. Joseph and of St. Stanislaus were imported from Paris and are masterpieces of statuary art.

Physical and Chemical Laboratories

Physical and chemical laboratories are on the first floor of the south building. Thanks to the generosity of friends of the Institution, the halls are now equipped with sufficient apparatus for intelligent laboratory work. The opportunity is thus afforded the students for individual work, under the direction of trained and experienced instructors.

The Gymnasium

The steady increase in the number of students attending St. Stanislaus and the growing popularity of Basketball during recent years, convinced the faculty that a new Auditorium was an imperative need. During the summer of 1923 plans were drawn by Messrs. Diboll & Owen, Architects of New Orleans, and construction begun under the direction of Mr. Charles Sanger of Bay St. Louis; the building as completed stands as a monument to their genius, a marvel of convenience for the students, and the pride of Bay St. Louis.

Buildings and Equipment---Continued

The Auditorium or Gymnasium occupies the entire second floor, 125 feet by 64 feet; the dimensions, seating conveniences, mechanical arrangements—all combine to make a basketball court equalled by few and surpassed by none in the South. The lower floor contains two modern class rooms, 25x35, a recreation hall, toilet, baths and spacious galleries. Four large dressing rooms with showers for use of athletes and a battery of showers for the student body, give every inducement to proper care of the body. Cleanliness being next to godliness, students of St. Stanislaus are taught their duty in this line and are given every convenience to fulfill the instructions. There are two hand-ball courts on the west end of the New Gymnasium.

Music Hall

Beyond the gymnasium and south of the Campus, is the music hall, occupying the entire second floor of a large frame building; it comprises large rooms for instrumental music and vocal rehearsals, besides a dozen rooms separated by glazed partitions offer advantages of privacy for individual practice.

Dining Rooms

On the first floor of the same building are the dining rooms for Juniors and Seniors. These refectories are large, well ventilated and screened throughout.

The Laundry

Close to the Infirmary is the Laundry, fitted up with a thorough and up-to-date plant, handling in a most satisfactory manner all of the work of the Institution.

The Library

It is divided into three sections, the Brothers', the Teachers' and the Boys'. The Boys' Library, located in the Seniors' Study Hall, contains upward of 2,000 volumes of Choicest English literature. The students devote an hour daily to the reading of some standard author.

The Infirmary

Beyond the spreading oaks, at one extremity of the Senior Campus, and distant from all noise and bustle, is the Infirmary. The indisposed are here placed under the care of an experienced graduate nurse and are visited daily by the attending physician.

Bathing

During the warm season, the waters of the Bay, in front of the College, present a natatorium as extensive as the Gulf. Every day in Summer, the students are allowed, under the care of their respective prefects, to take a refreshing dip in its invigorating waters. The bottom of the Bay, for a long distance out, is shallow, sandy and even. In the usual bathing area, the water is between three and five feet deep. The wharf extends a distance of 1,000 feet into the Bay. It supports, at four different intervals, large platforms fitted with benches for the comfort of the students, who, after supper, during the hot months, go there for about an hour, to enjoy the cool breeze.

Buildings and Equipment---Continued

HYGIENE

Undue attention to athletics at the expense of studies is not permitted; while, on the other hand, students are required to take part in healthy outdoor sports. Personal cleanliness is exacted by rule, and all students are held to regular bathing and frequent change of clothing.

The college fare is wholesome in quality, abundant in quantity and varied in preparation, and this, supplemented by regular habits, pure air, artesian water and wisely regulated alternations of study and recreation, seldom fails to build up the weakest, or to strengthen the hardiest constitution.

In case of sickness, a competent physician in daily attendance and an experienced graduate nurse are guarantees of intelligent and assiduous care. However, as soon as serious symptoms begin to develop in any case, the parents of the sick boy are, as a matter of precaution, immediately informed.

Water Works and Fire Protection

The College owns its system of water works. There are on the property four artesian wells sunk at different periods. The last, 1,000 feet deep, has a pressure of 25 pounds at the level of the ground and a flow of 300 gallons per minute. This water supply is piped and distributed over the grounds for the purposes of irrigation, sanitation and fire protection. An analysis of this water, by State Chemist Hand, reveals its excellence as drinking water; it possesses, besides, valuable medicinal properties.

The Campus

Lies directly west of the buildings. It is divided into two sections, one for the Seniors and one for the Juniors. It is a large, level tract of land affording ample room for all kinds of games. Shaded by magnificent, lordly oaks, it is provided with gymnastic apparatus for outdoor exercises. Seats conveniently placed under the trees afford a place of rest to the tired players or a point of vantage to the spectators. The cinder track has been the scene of many a spirited contest.

College Park

A quarter of a mile from the College, in the piney-woods, is the park. It is twelve acres in area, half of which is clear of trees, presenting a smooth, level, grassy lawn on which stretches a baseball field. A grand stand, whose seating capacity is over 1,000, was built in 1914. In this park are held the events of field days and school picnics.

Garden and Dairy

Extensive gardens, in close proximity to the school, furnish fresh vegetables in abundance.

A herd of prize cattle supply milk and butter to the Institution.

Course of Studies

The Course of Studies is that of a full four year High School, specializing in University Entrance requirements and in Commercial Subjects. A division of courses in the Senior Class enables a student to prepare either for College Entrance or for Commercial Work.

Scientific Course

The Scientific Course pursued by aspirants for College gives sixteen full credits. St. Stanislaus is a State accredited High School. Graduates of the Course are prepared to enter the State Colleges of Mississippi and Louisiana as well as the private Universities, such as Loyola, Tulane, Notre Dame, etc. Within the past few years Stanislaus students have matriculated at Loyola, Tulane, University of Mississippi, Mississippi A. M., West Point, Annapolis, Vanderbilt, Georgia Tech., Mercer, University of Texas, University of Chicago, University of Southern California, University of Florida, Louisiana State University and others.

Commercial Course

The Commercial Course prepares for Business life. It includes Bookkeeping, Shorthand, Typewriting, Commercial Law, Business English and Business Arithmetic.

Objective of St. Stanislaus College

The primary End of the College is to train Christian gentlemen by the harmonious and co-ordinate development of the heart, the mind and the body, and the secondary end is to qualify them for the commercial world or for professional life.

In the pursuit of these ends, the Faculty leave untried no means which devotedness and enlightened policy can suggest. Realizing that Religion is the true basis of education and an integral part of life, the Brothers teach it by example and precept, and its principles are inculcated as the foundation upon which all sound education must be based. A Chaplain ministers to the spiritual needs of the Brothers and Students. Though uncompromisingly Catholic, in tone and teaching, the College welcomes moral students of other denominations and leaves their religious opinions unrestricted. However, for the sake of order and discipline, such students are required to assist at the ordinary exercises of public worship.

SESSION

The scholastic year lasts from 36 to 38 weeks, beginning during the first week of September, and closing towards the second Sunday of June. It is divided into two nearly equal terms, the second of which begins in mid January.

ADMISSION

Though students are received at any time during the year, parents and guardians are reminded that it will materially conduce to the contentment as well as progress or their sons or wards to enter them at the beginning of the session. Applicants unknown to any of the Faculty should be properly introduced or recommended.

No student can be accepted below the fourth grade.

No new student is accepted to enter the Graduating Class.

MAIN ENTRANCE

THE CUPOLA

Discipline and Methods

The system of government is that of a well-regulated family; and the Faculty, as replacing the parents, insist on uniform compliance with the established rules of discipline. However, the students being at all times under the supervision of a perfect, infractions of the rules are, in a great measure, prevented. To further the aim of better discipline, the College has provided separate dormitories, study halls, dining rooms and playgrounds for all students under the age of fifteen. Gentlemanly conduct is required of the students at all times and in all places, and they are moreover strictly held to observe towards themselves, their companions and their superiors, those courtesies which are the distinguished marks of a Christian gentleman.

Each class carries but one grade and is under the management of one Brother who teaches all the branches in the grade. This system insures better personal knowledge of the students, better attention to their individual needs and better results.

A well-defined and detailed program determines the amount of work to be performed monthly in each classroom. Frequent visits from the President to the classroom guarantee its execution.

While appealing to the high moral incentives to spur students to the performance of duty, the Brothers rely much on emulation as the touchstone of success in a student's life. The Faculty, by means of awards properly bestowed, and demerits justly given, have succeeded in establishing a system that stirs laudable ambition in the student from the opening day of the session to the close of the scholastic term.

Weekly Reports

Each week's attendance, supplemented by correct recitation and excellent conduct, entitles the student to 100 merits for application from his teacher, and 100 merits for conduct from his prefect. Any faulty recitation, or breach of the rules of gentlemanly deportment, entails the loss of one or more merits in the corresponding branch. A weekly report of both application to study and deportment is forwarded to parents or guardians.

By means of "extras," the student is enabled to make up for merits lost. These "extras," ten a week, are allowed for fine points of conduct or for certain well-defined class work, over and above what is required, or for extra diligence in doing the work assigned.

A student whose average for application is 105 merits a week for the entire session is entitled to compete for the gold medal given in his class. A student whose average is 105 merits a week for conduct for the entire session, is entitled to compete for the gold medal given for deportment in his division.

Twice a year, in January and June, examinations are held in the various departments, the results of which are sent to Parents or Guardians.

These examinations serve as a basis for the reorganization of the classes of the ensuing session.

5:30	Study.
6:30	Supper. Recreation.
7:30	Reading.
8:30	Retiring.

LOOKING TOWARDS THE GULF

The Students' Counsellor

One of the Brothers of the Faculty is appointed as Counsellor or adviser of the students. It is his duty to co-operate with the Chaplain in directing the spiritual activities of the school, and to keep in contact with the various societies and sodalities. : : : : : : : :

He is in a special sense the friend and adviser of the Students, not only in matter spiritual, but also material and temporal:—in their studies, their social duties, and in other intimate and personal matters as each one may wish. His hours are arranged to make him at all times accessible to the Students. : :

It is of prime importance to a boy in boarding school that he have a friend and counsellor to whom he can turn in time of need; one who is trained in the solution of boys' problems and whose interest and devotion are unselfish.

Rates

GENERAL

Board, Lodging, tuition, Doctor's fees, library and athletic fees per Scholastic year.....	\$400
This amount is payable half yearly in advance. If patrons prefer, payments may be made in eight installments of fifty dollars each.	
Laundry and mending for entire session.....	\$20
This amount is divided into two payments as follows:	
On entrance in September.....	\$10
On January 15.....	\$10
(This charge covers marking of all clothing at entrance and during year).	

OPTIONAL AND SPECIAL

Music—Piano, violin, flute, mandolin or brass instruments per year	\$60
Typewriting, per year	\$20
No student is accepted in music or typewriting departments for less than one quarter session. Above fees are payable half-yearly or quarterly in advance.	

SOME THINGS ESPECIALLY FORBIDDEN

- | | |
|--|--|
| <ol style="list-style-type: none"> 1. Gambling. 2. Profane language. 3. The use of tobacco, in any form, except to students of the Senior Division, who hold a written permission from their parents. 4. Leaving the College grounds without permission. | <ol style="list-style-type: none"> 5. Borrowing or loaning money, bartering or selling articles of personal property. 6. Hazing or ill-treatment of any students. 7. Sending or receiving clandestine mail. 8. Discontinuing any branch of study once commenced. |
|--|--|

OUTFIT

Students should come provided with sufficient clothing and toilet articles. However it is neither necessary nor advisable to bring clothing for the entire year; as students are permitted to go home at Christmas and at Easter their wardrobes may be replenished on these occasions.

NO SPECIAL UNIFORM IS REQUIRED

In addition to articles of personal wear each student should bring one double woolen blanket, half a dozen napkins and a supply of face and bath towels. The College supplies one blanket and all bedding.

Apparatus and Chemicals—for students in Scientific Courses (Third and fourth years High School).....\$10

Graduation fees, Cap and Gown, etc.....\$10

Diplomas will not be conferred nor credits issued to students whose indebtedness to the college remains uncanceled.

No advance in money will be made by the college for clothing, traveling, dentistry, pocket money, shoes, etc., beyond the deposit left with the treasurer.

SPENDING MONEY

Unlimited spending-money being a prolific source of evil among students, parents are urged to supply their sons with only such as is needed to cover actual expenses and to furnish reasonable recreation; or better to deposit a sufficient amount with the treasurer advising him to dispense it as circumstances may require.

Day Students

Day Students are accepted at the College but they must conform to all the College rules while at College. The College reserves the right to refuse or to accept any student and expects parents to see that Day Students keep proper hours and attend to all home study and written work assigned.

Day Students must be regular and punctual in attendance. They must report at the College not later than eight A. M. and one P. M. In case of absence a written excuse must be furnished before they can rejoin their classes.

Tuition for Day Students

Grammar Grades

Fourth, fifth and sixth grades, per year.....	\$40
Seventh and Eighth grades, per year.....	\$50

High School

First and Second Year High, per year.....	\$60
Third and Fourth Year High, per year.....	\$70

Tuition is payable in eight equal installments.

STUDENTS SWIMMING IN THE GULF

Plan of Studies

The Scholastic matter is divided into two departments: The Grammar School and the High School.

GRAMMAR SCHOOL DEPARTMENT

The program of studies in this department prepares the student for the higher courses. Those who have completed it are entitled to enter the High School Department. This course includes the 4th, 5th, 6th, 7th and 8th grades.

HIGH SCHOOL DEPARTMENT

This department is designed to impart a well-rounded education. It fits those who complete it to enter Universities preparing for the learned professions, or to follow successfully a business career.

In the first two years of this course the Standard High School Program is followed. In the third year some Commercial Studies are introduced. The fourth year is divided into two departments:

THE SCIENTIFIC

In this Department only those studies required for College Entrance are retained, in order that a graduate be well fitted to pursue a College Course. Completion of the course gives sixteen full units besides giving the student a working knowledge of Shorthand and four years of French or Spanish.

THE COMMERCIAL

This course is designed for those who are to enter Commercial Life. It gives a thorough knowledge of Shorthand, Typewriting, Commercial Law, Business English, Business Arithmetic and Bookkeeping. This is superior to the ordinary business course as it has a regular High School education as a solid foundation. No student is admitted to the Course without full credit for three years of High School work.

High School Department

Senior Class, Scientific Course

CHRISTIAN DOCTRINE—(a) Review of Dogma and Morals, (b) Grace, (c) Prayer, (d) The Sacraments, (e) The Liturgy, (f) Discussion of Current Events in the Lights of Catholic Morality. Text: McVey's Manual of Christian Doctrine.

HISTORY:—Stories of Great Americans.

ARITHMETIC:—The Four Rules; Simple work on fractions. Decimals.
Text: Hamilton's Primary.

PENMANSHIP:—Daily Practice on formation and joining of letters.

AMETUR COR JESU!

*The League
of
The Sacred Heart*

The College being directed by the Brothers of the Sacred Heart, they naturally strive to make a manly devotion toward that Divine Heart a distinguishing mark of their students. Among the means to accomplish this end the League of the Sacred Heart holds a leading place. The College has been canonically created a Local Centre, and all the Catholic students, without a single exception, are members of this meritorious association. The good wrought during the past years has been a matter of deep consolation, and the Brothers attribute to a great extent, the exemplary conduct and Catholic spirit among their students to the blessings radiating from that benign Heart.

Sodality

of the

Immaculate Conception of the Blessed Virgin

Under the Protection of Saint Stanislaus

This Sodality, canonically established by the Ordinary of the Diocese, December 8, 1878, is a branch of the Arch-Confraternity under the same title in Rome.

Its chief ends are:

1st. To propagate devotion to the Blessed Virgin Mary.

2nd. To afford to each Sodalist spiritual assistance and encouragement, thereby facilitating the attainment of virtue and Christian piety.

On all Sundays and Holidays of Obligation the members assemble in their Oratory for the purpose of reciting the Office of the Blessed Virgin, which is always preceded by a short exhortation from the Director and terminated by the singing of some pious hymn.

The Officers and Consultors meet every month to treat of matters concerning the proper administration of the Sodality.

The good resulting from these pious exercises and frequent reception of the Sacraments has been most gratifying.

SOCIETY OF THE BLESSED SACRAMENT

ALTAR BOYS' SOCIETIES

Music

The work in this department is thorough and satisfactory. The students are taught to love the "Art Divine" and to regard its study as a privilege.

For years the excellence of our musical training has been admitted on all sides, and it is the earnest effort of the management to preserve and increase this enviable reputation. This Department is under the direction of Rev. Brother Oliver, a graduate of the Indiana Conservatory of Music.

SAINT STANISLAUS STADIUM

Athletic Association

College Colors: Cardinal and Black

The Brothers in charge of the College, persuaded that physical training forms an integral part of a comprehensive education, view with pleasure any reasonable sports which tend to develop the strength, skill and physique of the students. To this end a gymnasium has been added to the College and placed in charge of a competent physical director. The course of instruction pursued in the gymnasium will be governed by the individual needs of the student. Class lessons in calisthenics and out door athletics are given daily.

The College campus is an extensive and turfy tract, comprising about twelve acres of ground. Of this, about six acres is in a pine grove, where those not inclined to hard sports may find abundant amusement.

The genial climate permits outdoors exercise throughout the year. Football and basketball are the attractions during the winter months, but with the advent of spring term the students devote their spare time to becoming experts in the national game.

THE CHARLES JAUBERT MEDAL

Mr. George A. Jaubert agrees to donate to St. Stanislaus College, every year as an athletic trophy to be designated as the **Charles Jaubert Trophy**.

This award is to be made to the student of St. Stanislaus who is most valuable to his College in athletic competition during the session.

The recipient is to be designated by vote of the President of the College, the Vice-President and the Coach, each to have one vote.

It is specified that this award cannot be made twice to the same student.

(Signed) GEORGE A. JAUBERT.

Typewriting Department

SCHOOL AWARDS

(Offered by the Underwood Typewriter Company to all Schools)

CONDITIONS: 1. Only one test is allowed each month. 2. Time of test, fifteen minutes. 3. Number of errors is not limited. 4. Ten words (50 strokes) must be subtracted from the gross number for each error. 5. The length of the words is standardized by counting the number of strokes and allowing five strokes to the word.

FIRST AWARD: INITIAL CERTIFICATE—30 net words per minute.

SECOND AWARD: BRONZE MEDAL—40 net words per minute.

THIRD AWARD: SILVER MEDAL—50 net words per minute.

FOURTH AWARD: GOLD MEDAL—60 net words per minute.

FIFTH AWARD: GOLD MEDAL—(set with pearls)—70 net words per minute.

RECITATION ROOM—NEW BUILDING

Alumni Association

of

Saint Stanislaus College

The objects of this Association are: 1st, to preserve and increase the filial affection which former students bear to their Alma Mater, and to encourage them to further its interests as far as lies in their power. 2nd, to renew and perpetuate the friendships of younger days. 3rd, to provide its members with the advice and help of sincere and trustworthy friends.

The members of the Association consist of graduates and former students of St. Stanislaus College. By right of graduation, graduates are received as members on application. All other students shall be admitted by a majority vote, a quorum being present. All graduates who sent in their application before the closing exercises of June, 1908, are enrolled as charter members. After that time all applicants for membership must go through the initiation ceremonies of reception.

Officers 1928-1929

August Claverie, '77.....	President
Rev. Brother Peter	Honorary President
Louis Jacob, '76.....	1st Vice-President

The Next Session will begin
MONDAY, SEPTEMBER 10th, 1928

From August 20th until the opening day the College maintains an office
at the Roosevelt Hotel, MAin 3920.

Parents whose sons come through New Orleans should notify us, that we
may meet the train and take charge of the boys as they reach New Orleans.

On Monday, September 10th, special cars are provided on the L. & N. train,
leaving at 3:30 P. M. Members of the Faculty are there to assume charge of
students.

For further information apply to
THE PRESIDENT
BOX 128, BAY ST. LOUIS, MISSISSIPPI

PHONE .72
